# GUARDSMEN WILL BE SENT HOME AS NEW ONES ARRIVE

Finston Received Orders From War Department to Return One Regiment for Each That Arrives on Border in Future.

ICE MORNING JOURNAL SPECIAL LEADED WIRE  
Washington, Sept. 18.—General Finston was directed by the war department today to return one national guard regiment to its home station for each new regiment of the guard sent to the border.

The second New York infusion will be one of the first to return. Other regiments will be selected to general rotation. Trade equipment used to transport troops recently gathered south will be simplified in bringing home the returning regiments.

This order was issued in line with Secretary Baker's policy of sending all organizations in state mobilization camps to the border before they are mustered into the general service. The three North Carolina regiments ordered south Saturday together with those from Tennessee already on the way will be the first to reach general rotation command to relieve troops now here.

There are 100,000 guardsmen still in the state camps. These will move rapidly as the necessary arrangements can be made.

It was indicated at the war department that no general movement of guardsmen homeward would be ordered until a decision affecting the border situation had been reached by the American Mexican commission, now meeting at New London, Conn. The department has submitted the final disposition of all border troops, the national guard and the regulars to the commission.

When the national guard organizations are ordered to home stations to muster out, those members who apply may be discharged at border stations when applications are made in good faith and are approved by the commanding officer.

**Explorer Favorably Impressed.**  
Berlin, Sept. 18 (by wireless to say)—Sven Hedin, the explorer, has returned to Constantinople from a six months trip in Siberia, Mesopotamia, and the small peninsula says a dispatch to the Overseas News Agency. The explorer adds the dispatch, expressed himself as favorable impressed by his observations of conditions in Asia, where he found that numerous factories recently have been established and also reported that he had observed abundant supplies of grain and other provisions for the population.

**Keep Businesses Going.**  
In an interview with a correspondent of the Associated Press the manager of the Berlin office of the association said that it is maintaining but a tenuous existence now in view of the fact that no business correspondence of Germany with the countries in question is possible. The society, however, has representatives, notably German business men, in all centers of trade in those countries and nearly all of them have stated (when they were interviewed) ascertaining that their accounts to keep their business going in some way. The services of these men will be sought soon immediately after the war closes to give advice to the best ways and means for restoring German trade.
